SUMMARY

Detail-oriented Computer engineer with a strong foundation in software development and problem-solving. Eager to apply technical knowledge and analytical skills to contribute to innovative projects.

SKILLS

Languages: Javascript, Java, HTML, CSS, SQL

Libraries: React.js, GSAP.js, MongoDB

Frameworks: Node.js, Express.js, FastAPI, Material-UI, Bootstrap, Tailwind

Dev-Tools: Visual Code, Visual Studio, Git, Github, Eclipse, MySQL, Mongoose, MongoDB Compass, MongoDB Atlas, Adobe XD, Figma

EDUCATION

Bachelor of Engineering – Ideal Institute of Technology, Thane.

- Computer Engineering – 2021-2024

Diploma – Vidyalankar Polytechnic, Mumbai.

- Computer Engineering – 2017-2020
-

PROJECTS

Lama-AI | [Project Link](#) | [Source Code](#)

Sep 2024 - Oct 2024

Create a functional copy of artificial intelligence.

- Using React.js for the frontend, incorporating CSS and HTML for styling.
- The project employs Node.js and Express.js for the backend, with MongoDB and Mongoose for database management, and integrates ClearK for user authentication.
- API interaction, while the project follows OpenAI documentation for implementation guidance.

Blockto | [Project Link](#) | [Source Code](#)

Jan 2024 - Feb 2024

This blockchain project features a real-time currency tracker.

- Displays top and daily high currency rates for informed trading decisions.
- It includes a *personal secure wallet* that ensures the safety of users' digital assets through advanced encryption.
- Designed with a user-friendly interface, the platform simplifies navigation, making it accessible for all users.

WorldAtlas | [Project Link](#) | [Source Code](#)

Jun 2023 - Jul 2023

World Atlas is a project that provides comprehensive data and insights about various countries, including geography, demographics, and cultural information.

- Retrieves data from an API using React JS, HTML, and CSS.
 - It leverages React 19 for form data handling and incorporates React Router Dom and Axios
 - Features advanced functionality, including search, filtering, and options for both ascending and descending data sorting.
-

CERTIFICATION

- **SQL Intermediate Course (08/2023 - 09/2023)** An intermediate SQL course builds on basic skills, covering advanced querying, joins, subqueries, transactions and database administration concepts..
- **Creative HTML5, CSS3 Javascript and React.js (09/2023 - 09/2024)** The program provides in-depth training in web development, equipping learners and responsive web application.
